Jensen Adaptive Change

Elisabet Jensen

Agile Coach SPC, Certf Coach ACC,
Change and Development Manager

My strength is leadership and development work in groups, companies and organizations and to get things done.

I am a Lean Agilist and my main areas of expertise are to lead Lean/Agile digitalization/software development.

I have worked in many different contexts, and it is easy for me to get acquainted with new areas and development industries. I have the eye for why things should be implemented or done, and for whom.

I have a proven track record in building strong teams, motivate and inspiring people.

Roles; Agile Coach SAFe SPC, Change or development Leader

I am also a trained Coach with a focus on self-leadership and leadership for managers, employees and individuals.

Summary of work experience:

- SAFe transformation in a large insurance and banking company, with the assignment to do an assessment on the implementation and reinforce Lean/Agile and SAFe in a program.
- Several major programs/product companies where I had roles as project manager, Agile Coach, Product Owner, Scrum Master and manager. The work has included everything from requirements, development management, testing and implementation. All the companies were in an Agile transformation phase where I had a leading part.
- In one of my roles, I developed and implemented a new organization involving the IT department, operations, and management. The organization was based on Agile methods, PM3 with focus on customer and delivery.
- At a Product Company, I was head of the Product Owner group, where I also developed a new test strategy and was responsible for the implementation.

I have a drive, love what I do and have the ability to motivate people around me.

FRA (2017 Oct - 2019 Aug)

Placement in a military position in Security level 1-2, which means that I am unable to disclose any details regarding the assignment or employment.

"There are several nice features in Elisabet! She is persistent, with a constant quest to make things better. Elisabet is thoughtful, thinks holistically, challenges outdated ways of working and focuses on changing culture. Constantly read in the latest leadership ideas and has the ability to intertwine theory with concrete practice. Elisabet is the Agile Coach who makes a difference, the one who turns problems around and finds possible solutions. She gives of her time when her colleague needs advice. The ballpark that many of us have turned to. If you have a development project that needs to be managed, or a team that needs agile coaching, Elisabet is the one you are looking for!"

— *Richard Svahn, PMO, Portfolio, Project Management*

Softronic AB, Project Manager, Development Manager in eHealth (2015 Mar-2017 Oct)

Responsible for totally 4 assignment. The largest project was the 1177 Healthcare Advisory, where I had the role of Operational Project Manager and Scrum Master for the development team. Another assignment was an e-referral solution to be able to send eReferrals between different formats/systems. Two projects where we developed apps for contact between patients and healthcare providers. I also had the role of Agile Coach and as a senior Project Manager coaching the new project managers.

Tools & Methods: Agile, Lean, Project Management, Jira, Office

"Elisabet is a project manager who, with her long experience, quickly becomes acquainted with new businesses and with a short starting distance becomes productive and adds value for her clients. Elisabet brings with her a deep

Jensen Adaptive Change

knowledge of project methodology and can both implement and develop the right model for the right assignment. Elisabet works with high energy and is a very popular employee and a distinct team player.”

— Elias Nilsson, Konsultchef

Capio St Görans Hospital, Project Manager, Change Manager (2014 May - 2015 March)

Developed and implemented a new organization for the management and development of the care-related systems used at Capio St Görans' hospital. The organization now promotes collaboration between IT and the business, increases transparency, ensures quality and efficiency. The work is supported by Lean, Agile working methods (Scrum) and to some extent PM3's management model.

Tools & Methods: PM3, Agile, Lean, Jira

“Elisabet is a very dedicated project manager. With a strong focus on target she realizes that the devil may dwell in the details. Elisabet has a strong understanding of the Swedish health care context. By joining this with a knowledge of health care digitalization she is a strong driver for change. Elisabet is devoted to the task, loyal to the team and organization and straight forward honest person. We were lucky to have Elisabet in our organization as a digitalization change manager!”

— Niclas Skyttberg, Chefläkare

Cambio Healthcare System, Development Coordinator (2014 Feb - 2014 May)

Coordinated development team in a major software product together with TPO (Technical Product Owners).

Cambio Healthcare System, Product Specialist, Manager, Agile Coach (2010 Sep - 2014 Feb)

Worked as a Product Owner for the Medication module in the eHealth system at Cambio. The development team was located in Sri Lanka and worked partly on site in Sri Lanka.

Implemented Lean software development processes in the teams and improved the Agile working methods (Scrum). Developed also a new test method to efficiently and safely test the quality of the product. The method included a risk analysis that was the basis for the entire test operation and planning.

For the last 1.5 years, I worked as the head of the Product Specialists for the standard product. Implemented the test methodology for all teams and coached them in Agile, Lean methods and tools.

Tools & Methods: Agile, Lean, Cambio Test Structure and Risk Management, Jira, Office

“I have worked with Elisabet for several years and am happy to recommend her. Her lean thinking, high quality focus and customer orientation makes her a strong driving force. She is also a well appreciated colleague with a proven track record in growing strong teams. I would happily work with Elisabet again if I get the opportunity. She is an asset to any organization.”

— Malin Laudon, Director Product Development

“Elisabet is simply a “package of standout talents”. “Efficient and smart” are the key words come into my mind when I think about Elisabet. I had the pleasure to work with her for almost 4 years. Best thing is that she fine-tuned the process for our team to eliminate almost all waste and developed “Lean” thinking pattern in the team. Ultimate result

was smooth work flow and guaranteed productivity. She is a person with a sound knowledge who can turn any team to a productive team in any environment.”

— *Roshan Indika, Senior Tech Lead*

“I had the pleasure of working with Elisabet for two years at the Cambio Software Engineering where she was my product owner in one of the product teams I have worked with. I can mention her as one of the very inspiring persons I have ever worked with. She exhibits strong interpersonal skills and is also a very committed person who puts her maximum to achieve the required goals in a project. She has a good capability to motivate a team to reach the goals and deadlines of a project and to make it a success. She is also a positive attitude person and serves as a person who tries her best to overcome outside barriers to her team. She never forgets to give necessary recognition to people who worked under her and helped to make the work a success.

Any employee would be lucky to have Elisabet as a leader/manager.”

— *Udeesha Isurinda, Tech Specialist*

Capio St Görans Hospital IT department, Project Manager, System Manager (2006 Aug - 2010 Sep)

Responsible for the Documentation and Medication module in the eHealth system used at Capio, which included ensuring the quality and use of the product. I introduced a user license for all doctors at Capio St Göran's hospital in the Medication module, which meant that all users had to pass a certification before being granted access to the system.

Program leader for an IT security project - to implement the new Patient Data Law (2008), which results in stricter regulations for information management, leadership and handling of security and continuity issues. The program consisted of a number of sub-projects; technical platform set of HSA catalog, information security, information classification, Continuity Plan.

Tools & Methods: Agile, Lean, Cambio Test Structure and Risk Management, Jira, Office

“Elisabet has a developed ability to manage and lead projects/missions. She is loyal, responsible and has an eye for the "why" various changes must be implemented. Elisabet is very self-propelled as e.g. demonstrated by using the evenings to read up and learn more about the necessary conditions for the final result. Elisabet will be a great asset for any business and area she chooses continued cooperation with her because she is a strong driving force that takes great responsibility.”

— *Maria Wijk, IT Chef*

Specialist nurse Capio St Görans Hospital, (2001 March - 2006 Aug)

Full-time Specialist Nurse. Responsible of implementation of the hospital's new EHR system.
